

# IT'S YOUR CLEANDOM.

Defend every inch of it with  
CloroxPro®.

Actor portrayal

**CLOROXPRO**

# PROTECTING YOUR CLEANDOM IS A TEAM EFFORT.

Whether you're an Infection Control Professional, Nurse or Environmental Services Provider, you take pride in your facility, and your ability to prevent hospital-acquired infections. Your facility is your Cleandom, which is why you do all you can to keep pathogens from threatening its safety. After all, there are so many counting on you to help keep germs at bay, from the patients doing their best to heal, grow stronger and stay healthy, to the staff members who give their best each day.

When you choose Clorox Healthcare® products, you're choosing a dependable solution trusted by leading hospitals in North America. What's more, your team gets best-in-class implementation, training, tools and follow-up. So you're supported in defending your Cleandom, as you help safeguard all who enter.

---

**“I feel a deep sense of responsibility and pride for my hospital.”**

– Infection Control Practitioner

**“As EVS, we are not just cleaners, we are healers and protectors of our facility.”**

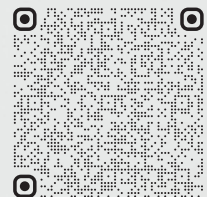

– Environmental Services Provider

**“A big component of protection is making sure we have the right materials to provide that protection.”**

– Nurse

# HOW CAN CLOROXPRO® HELP YOU PROTECT YOUR CLEANDOM?

Hear what healthcare professionals had to say

---

**“The portability and disposability of the wipes as well as the dry time contribute to a quicker disinfection process.”**

– Infection Control Practitioner

**Having ready-to-use wipes is a game changer, from reduced kill time, ease of use and ensuring there is not double dipping, it's a much better way to ensure you are truly cleaning and disinfecting surfaces properly.”**

– Environmental Services Provider

**“The wipes make cleaning equipment easy. It's also reassuring that I'll prevent the spread of infections and not bring dangerous pathogens home to my loved ones.”**

– Nurse
